Shipping Directions

Customers are requested to state explicitly the method by which they wish stock forwarded. When no route or method is designated we exercise our best judgment. Shipments may be made by express, freight or parcel post. Truck deliveries are subject to special arrangement. We are endeavoring to comply with the O.D.T. regulations by combining shipments whenever possible. Please consider this when asking us to arrange deliveries.

Air Express

When 3-mile-a-minute overnight delivery speed to distant points is needed, specify Air Express. Often same-day delivery between airport towns and cities. Available to non-airport cities too, through combined rail-air service. Typical rates: 25 lbs. travels more than 500 miles for \$4.38, more than 1,000 miles for \$8.75.

Conditions of Sale

The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind and size will be priced at the each rate.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind and size will be furnished at the hundred rate, this rate given upon request.

Specimen plants, selected by the customer or by his representative, will be priced according to their individual values.

Prices are subject to change without notice

Guarantee

We guarantee our plants to be healthy and free from injurious insects, to be dug carefully and packed properly for safe shipment. If damaged in transit, a claim should be made upon receipt, notifying carrier and us of the circumstances. If plants prove to be other than true to name, we will supply new ones at the first proper planting season following such claim, but in no case do we assume liability for more than the original purchase price. We do not guarantee our plants to live, because we have no control over them after they leave our hands. You can guarantee their success by giving them proper care.

Terms

Our terms are cash. Charge accounts, for 30-day credit, may be opened upon receipt of satisfactory credit references, allowing us time for investigation. All accounts unpaid after due date will be subject to sight draft without further notice. C.O.D. express shipment will be made (with collection charges added to the bill) only when order is accompanied by a deposit of at least 25 per cent. of the amount of the bill.

Evergreens

*All Evergreens are dug Balled & Burlaped (B&B) at prices quoted.
Five or more Evergreens of one kind will be priced at the 10 rate.*

5 to 6 ft.	20.00	180.00

nigra (austriaca)

Bold, long dark green foliage. Very tough, rugged and handsome.

Austrian Pine

2 to 3 ft.	3.50	33.00
3 to 4 ft.	5.50	50.00

PINUS resinosa

The leaves are longest of any Pine. An attractive rapid-growing evergreen with lustrous green foliage. Tree is equally good for planting as an individual in groups, or for screens and windbreaks.

We have available a quantity of Red Pines from 8 to 16 ft. Ask for quotation.

strobis

This is our native White Pine, the Pine that adds so much to our New England countryside. The foliage is a deep green with a silvery bloom providing a warm rich appearance. It is one of the three best large-growing evergreens.

We have available a quantity of White Pines from 8 to 16 ft. Ask for quotation.

sylvestris

A rapid grower with an uneven, shaggy, and picturesque habit of growth. Foliage varies from green to a silvery grayish blue.

thunbergii

A graceful, wide-spreading tree with broad irregular head of brilliant green foliage. It is the *outstanding* tree for planting close to salt water.

PSEUDOTSUGA douglasi

A tree of majestic appearance growing to considerable height. The foliage resembles a Spruce but the needles are softer and longer. There is a variation in color from medium to dark green and often with a grayish to bluish overlay. Plant for specimen or screen use.

SCIADOPITYS verticillata

A striking evergreen with handsome thick lustrous green needles. Develops into a most magnificent large narrow cone.

TAXUS baccata repandens

A low spreading yew with slight droops to outer branches. Color is a dark green.

Planting Suggestions

All our Evergreens are shipped with the roots in a ball of earth securely wrapped in burlap. It is important not to let this ball of earth become dry. When planting, be sure to dig a hole large and deep enough to receive ball without breaking or forcing. Remove the burlap before filling in with good soil. If the ground is dry, the hole should be partly filled with well-trodden earth and then filled with water. When the water has soaked in, put in more earth and more water, repeating the process until completed. If a slight depression is left about the base of the plant, it will help in future watering.

All newly planted Evergreens should be made as firm as possible, that is, do not hesitate to tread the soil on the surface of the ground or to tamp it with a stick until it is very firm. Planted in this way, the plant is well anchored and not likely to be loosened by strong winds or heaved out by frost.

Perennials

We believe you will find the following chart very helpful in making your selection of Perennials. It is easy to make comparisons as to color, time of bloom and height.

Prices are: 3 for \$1.25, 10 for \$3.50, except as otherwise noted.

Perennials are priced in minimum units of 3 of a kind. When a single plant of one kind is desired, divide price for 3 by 3 and add .05 per plant for additional expense of labelling and wrapping.

Likewise when 3 different plants of a species are desired, like Phlox one each of 3 varieties, the price will be \$1.25 plus .05 each or .15. Total \$1.40.

Herbs

The Herbs are a necessary part of every Victory Garden. Their use increases the kinds of dishes we can create from the limited varieties of foods we can buy. Soups, salads, meats, and vegetables are all made more interesting and more tasty by the addition of Herbs. Many home-canned foods demand the use of Herbs. A corner of the garden planted to Herbs will add interest and enjoyment to the table.

Prices are: 3 for \$1.25, 10 for \$3.50, except as otherwise noted.

- Dr. W. Van Fleet**. Beautiful Roses of the Hybrid Tea type suitable for cutting. Flowers are of pale flesh-pink with a slightly darker center.
- Elegance** (Pat.). The largest of blooms in perfect form; pure yellow center shading to white, making a brilliant display. \$1.50 each, \$14.00 per 10.
- Golden Climber** (Mrs. A. C. James) (Pat.). A yellow rose that many consider the finest yellow climber. Fragrant; ideal for picking, very long stiff stems. \$1.50 each, \$14.00 per 10.
- Golden Glow** (Pat. 263). Very large, fragrant pure yellow, double flowers of extreme beauty, freely produced on plants with rich dark green foliage. \$1.50 each. \$14.00 per 10.
- Mary Wallace**. Another climber on type of Dr. W. Van Fleet, but blooms are brilliant pink with a yellow undertone. Very rich.
- Paul's Scarlet Climber**. This is the most popular and satisfactory scarlet-Climbing Rose. It has clusters of medium-sized semi-double brilliant scarlet flowers.
- Silver Moon**. A very strong climber with beautiful waxy green foliage and very large, pure white, semi-double flowers with golden stamens.

Until recent years there were no satisfactory yellow climbing Roses. Now we have *several yellow* and closely associated shades of color that have demonstrated their suitability for New England gardens. We recommend: Copper Glow, Elegance, Golden Climber, Golden Glow and Climbing Break O'Day. All were developed by the Brownells at Little Compton, Rhode Island.

SHRUB ROSES

\$1.25 each, \$11.00 for 10

Except as otherwise noted

F. J. Grootendorst. A perfectly hardy everblooming shrub Rose suitable for hedges, specimens or border planting. The plant is similar to the vigorous Rugosa Rose in growth, with large, glossy foliage which is seldom attacked by insects or disease. The flowers are small, fringed bright scarlet flowers like little Carnations, and are borne unceasingly from early Summer until late Autumn.

Rosa Hugonis. "*Father Hugo Rose.*" This handsome, arching shrub with spiny stems and delicate foliage, blooms very early in May in long garlands of bright yellow, single flowers which are followed by red, translucent fruits. Give it a warm, sunny exposure to induce it to flower early. The plant is perfectly hardy. 2 to 3 ft.

Rosa Rugosa. (Rugosa Rose.) A stout right shrub, densely covered with prickles having bold, wrinkled foliage, immune to insects and disease. The flowers are very large, single, rose-red, and very fragrant, followed by crimson-scarlet fruit. Excellent near the seashore.
